Recommendation

To whom it may concern

Jan Reynders has been working -first as a student, and after graduating- as a constructing architect at Svendborg Architects, from 2015 till 2018.

He has mainly been working with a residential area project, called Drabækhus: 78 new homes: one and two-storyes in Allerød, northern Denmark. Jan has been a very import part of the team making REVIT-drawings in all phases after the competition-win. Halfway completed the housing-project has been selected "*project of the week*" by the Association of Danish Architects.

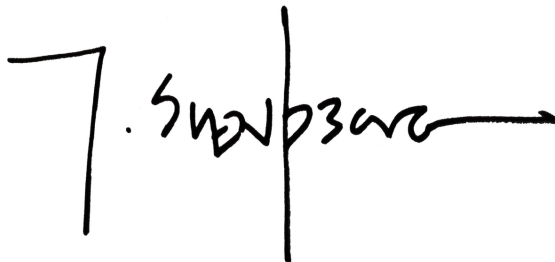

He has also taken part in another housing project: "Musicon" a 5-storeys housing Blocks at "Bifaldet" in Roskilde, Denmark. Jan designed mainly kitchens and bathrooms. This project is in its building phase right now.

Jan Reynders also did the fire-escape-documents for a smaller project called "House of Art" in Roskilde, Denmark.

As a constructing architect he has been an extremely valuable link between the architects in the office and the engineers and contractors.

Jan has shown to be a competent help and a very loyal and committed employee. We also got to know Jan as a team-player, and a very social colleague; a dear friend of the office, and we wish him all the best in his career.

Yours sincerely

A handwritten signature in black ink, appearing to read 'J. Svendborg', with a long horizontal stroke extending to the right.

Johnny Svendborg, architect MAA CEO.
